Foster stated that all load serving entities should meet resource adequacy (RA) and all RA

requirements should start at the same time. Foster noted that the RA requirements should be phased in over the next four years. Foster explained that debt equivalence is a cost to utility customers, which needs to be recognized. Foster asserted that the utilities need more flexibility and should not be required to procure solely through an Request for Proposal process. Foster urged the Commission to adopt SCE's Interim Plan until it resolves the customer base issues and not issue new proposed decisions without giving parties the opportunity to comment.

1/15/04 R01-10-024 Order Instituting Rulemaking to Establish Policies and Cost Recovery Mechanisms for Generation Procurement and Renewable Resource Development.

Summary: On January 15, 2004, Lad Lorenz, Vice President of Regulatory Affairs, San Diego Gas & Electric Company (SDG&E), met with Aaron Johnson, advisor to Cmmr. Lynch, in San Francisco. Also present was Billy Blattner, CPUC Relations Manager, SDG&E. Lorenz stated that the decisions misunderstand the composition of SDG&E's risk management committee, resulting in unnecessary orders affecting the membership and establishing a duplicative audit. Lorenz also noted that the permanent affiliate transaction ban will preclude SDG&E from bringing the widest range of procurement opportunities before the Commission; at the very least, the Commission should allow pre-approval. Lorenz added that without recognition of debt equivalency, the Otay Mesa project cannot go forward. Blattner offered SDG&E's resource adequacy proposal as a reasonable framework that would prevent gaming, preserve the Commission's jurisdiction, and assure resources.

1/16/04	A02-05-046	Southern California Edison Company (U 338-E), Regarding the Future Disposition of the Mohave Generating Station.

Summary: On January 13, 2003, Joe Shirley, President of the Navajo Nation, met with Cmmr. Lynch in Window Rock, Arizona. Also present were George Arthur, Council Member and Resources Committee Chair, Louis Denetsosie, Attorney General, John B. Rutherford, Assistant Attorney General, Stanley Pollack, Water Rights Counsel, Peggy Nakai, Legislative Advisor, Gerri Harrison, Legal Advisor to the President, Phil Russell, Deputy Chief of Staff to the President, Dena Jackson, Public Relations Officer for the President, and Mark Fogelman of Steefel, Levitt & Weiss, P.C., outside counsel, for the Navajo Nation. Shirley outlined the importance to the Navajo Nation of the continuing operation of the Mohave Generating Station and the Black Mesa Mine. Fogelman stated that the Commission should make every effort to reach a decision in the Mohave proceeding during 2004, and expressed the concern that the Commission's fair resolution of the proceeding not be prejudiced by determinations in other pending Commission proceedings. Pollack explained that the Navajo Nation was optimistic that the feasibility study would prove out the adequacy of the C-Aquifer as an alternative source of water to transport coal slurry from the mine to the plant. Arthur discussed the Navajo Nation's sensitivity to and awareness of the environment and the balance of nature. Rutherford explained that the resolution of discussions regarding coal supply would be facilitated if Southern California Edison Company would talk directly with the Navajo Nation about such issues. Fogelman stated that sufficient cost evidence existed to enable the Commission to determine that the continuing operation of the Mohave plant after 2005 was in the public interest.

Southern California Edison Company (U 338-E), for approval of its 2004 Revenue Requirement and related estimates under the Energy Resource Recovery Account (ERRA); and for a Commission Finding that its Procurement-related and other Operations were reasonable for the Record Period September 1, 2001 through June 30, 2003.

Summary: On January 13, 2004, John P. Hughes, Manager, Regulatory and Policy Affairs for Southern California Edison Company (SCE), spoke on the telephone with Mike Campbell, advisor to Cmmr. Lynch. Hughes stated that SCE was hoping that the Commission does not hold the proposed decision (PD) of ALJ Galvin past the January 22, 2004 meeting. Hughes explained that, despite SCE having recently been upgraded to investment grade status by the rating agencies, SCE cannot issue commercial paper and would probably not be able to obtain commercial paper to finance any ERRA undercollections for at least another year. Hughes also stated that the PD does not reflect SCE's actual borrowing cost for ERRA undercollection, and if SCE is in an undercollection position, its shareholders will be paying the difference between its actual interest cost and the lower recovery amount reflected in the current PD.
